We are enclosing a copy of the RCRA Facility File Index Sheets for Chemours Company FC, LLC (formerly Dupont Chambers Works) at 67 Canal Road in Deepwater, New Jersey, and EPA ID No. NJD002385730. We will arrange to make the files available to you that are located in our RCRA file room on the 15th floor, as well as the documents that the EPA Project Manager may have. Kindly arrange your appointment with Mr. David Abrines of my staff at (212) 637-3043. The file offices are open between the hours of 9:00am - 4:00pm at the following address:

Be sure to bring a copy of this letter when coming to our EPA file office, and make reference to the EPA ID Number NJD002385730.

If you decide that you cannot visit us, another suggestion is that you can select the information that you need from the RCRA Facility File Index Sheets. You can place an asterisk next to the documents that interest you on the index sheets, and then e-mail the information to abrin.es.david@epa.gov. Afterward, Mr. Abrines will review the documents that you selected on the indexes, and contact you concerning the final cost. Keep in mind that if you decide to work from the enclosed index sheets, and not visit our office; you may not be looking at all of the documents that we have.

Regarding the archive documents for Dupont Chambers Works, we suggest that you first review the documents that are listed on the enclosed Facility File Index Sheets, and that are also available in our office. If you need to request documents from the archived list you will need to contact Mr. Abrines.

We also have four documents for Dupont Chambers Works, Deepwater, New Jersey, which may be considered confidential. We recommend that you first review the documents that we have.
